About Us

Amortec Pty. Limited is an Australian based company established in 1992 with operations in Adelaide, Melbourne, Sydney, Port Macquarie and Brisbane delivering Quality, Reliability and total customer Satisfaction to our clients.

Amortec is committed to providing the highest quality industrial refrigeration, heat transfer equipment and commercial refrigeration and air conditioning systems via our team of highly skilled engineers, managers, supervisors, technicians and associated staff whom exceed our customer’s expectations by delivering reliable, cost effective, productive and safe services that are environmentally conscious.
Testimony to the Amertec™ product is a satisfied customer base that includes some of Australia’s most successful businesses in the following industries:

a) Cold Storage and Warehouse Logistics Facilities.
b) Commercial and Industrial Air Conditioning.
c) Wine & Beverage Industry.
d) Food Processing & Baking Industry.
f) Plastics Injection Molding Industry
g) Horticultural Industry.
h) Dairy Industry.
i) Fishing & Aquaculture Industry.
j) Mining & Petrochemical Industry.
k) Pharmaceutical Industry.
l) Post-harvesting cooling/handling
Services and Products

a) Design, manufacture and installation of Industrial Refrigeration, Commercial Refrigeration and Air Conditioning systems.
b) Customized prescribed maintenance and planned plant shutdown programs.
c) Specialized on site and off site overhaul of reciprocating and screw compressor programs. Plant optimization programs reducing energy consumption and operational costs.
d) 24/7 breakdown service to Industrial Refrigeration, Commercial refrigeration and Air Conditioning systems. Engineering assessments of plant and associated equipment.
e) System commissioning and start up service.
f) Budget estimating for new plant and equipment.
g) Turn key projects on a national and international basis.
h) Vilter Refrigeration and Gas Compressors including heat transfer equipment.
i) Spare parts for industrial refrigeration compressors including Vilter, Mycom, Budge, Stal, Howden, Sullair, Grasso, Frick, Bock, Bitzer, Copeland, Carrier and Hasegawa brands.
j) Pumps, refrigeration lubricants, refrigerant and safety products also available.

Specialized Services encompassing:

a) Project design, management and consultation.
b) Plant compliance and safety audits.
c) Energy management surveys.
d) Plant automation and Central Computer Control systems.
e) In House staff training seminars. Remote plant and equipment monitoring.
f) Computer aided design and drafting.
g) Specialized compressor overhauls on and off site.
h) Programmed Plant “shut down” teams 24 hour operation including Petro Chemical & Mining.
i) Vilter Refrigeration Products:
   1) Open drive Reciprocating Compressors.
   2) Open drive Screw Compressors.
   3) Gas Compression.
   4) Industrial Heat Pumps.
   5) Packaged Refrigeration Systems.
   6) Howden Refrigeration Compressors and Parts.
Company Resources

Amertec™ employs & engages the following skill sets:

a) Refrigeration and Air Conditioning Engineers.
b) Field Operations Management personnel.
c) Accountants.
d) Office Management & Administration.
e) MIS personnel.
f) Trade qualified & certified Refrigeration Technicians.
g) Trade qualified & certified Air Conditioning Technicians.
h) Sales and Marketing personnel.
i) Mechanical Plumbers. Trade qualified & certified Electricians.
j) Sheet Metal Manager & Tradespersons.
k) Apprentice Refrigeration & Air Conditioning Technicians.

Field personnel operate:

a) Via National 1300 Service phone number.
b) Fully equipped service vehicles.
c) Prompt contact via mobile.
d) 24 hour / 7 day afterhour emergency breakdown service all year.
e) Access to the latest technology.
f) With all relevant PPE as required.
Relevant Experience

**Amertec™** was established in 1992 and manages the industrial refrigeration and air conditioning requirements of some of Australia’s leading brand Food, Beverage, Dairy and Specialized Industry sectors such as Penfolds, Rosemount, Wirra Wirra Wines, Nippy’s, Berri, Nudie Fruit Juices, Schweppes and Bickfords soft drinks, Arnott’s Biscuits, Menz Confectionary, Steggles Poultry, Sungold Products, Big M & Moove, Pura, Coon, Hahn & West End, Pace Farm Eggs & Wonder White products.

The company’s management group boasts more than 150 years of experience and leads a team of engineers and technicians who understand the business and production requirements of how to apply the right cooling and heating requirements that comply with the standards of a broad range of industries.

With food, beverage and specialized industries sectors that boast a global reputation, **Amertec™** is playing an important part to preserve Australia’s enviable status of producing and manufacturing quality products, as the specialist in the application of industrial refrigeration and air conditioning services.

**Amertec™** success is due to its commitment to fulfilling customers expectations and developing and maintaining good relationships. “We place enormous value on long-term business relationships” and have our customers best interests at the heart of every business decision – as a result; we have a loyal customer base. “In every industry – regardless of your client base and service offering – there is no substitute for Quality Reliability and Service”.

Our company philosophy has always been to continuously improve our business through the provision of quality products and service and the continued development of our Amertec Integrated Management System (AIMS Manual). This system delivers clear and concise direction on how our employees provide to you, our customer, the service that delivers safe, environmentally responsible, reliable and quality equipment. “Total Customer Satisfaction” with a Can Do approach to business.

**Amertec™** is the authorised distributor of the Vilter® range of compressors and heat transfer equipment for Australia and New Zealand. The Vilter company is part of the world wide Emerson Climate Technologies Group.
As part of our commitment to achieving the principles of health and safety in our workplace, we recognise our moral and legal responsibility to provide a safe and healthy work environment for employees, contractors, customers and visitors. This commitment also extends to ensuring that our operations do not place the local community or environment at risk of injury, illness or damage.

AIMS AND OBJECTIVES
a) We will adopt procedures to provide a healthy and safe workplace, safe plant and systems of work;
b) Provide written procedures and instructions to ensure safe work practices, except where common sense and trade qualifications are appropriate for the task at hand;
c) Ensure compliance with legislative requirements and current industry standards;
d) Provide such information, instruction, training and supervision to employees, contractors and customers as is necessary to ensure their continued health and safety;
e) Provide support and assistance to employees and involve them in consultation on safety issues.

RESPONSIBILITIES
We recognise the responsibility to provide a safe workplace is a function of good management who will be accountable for the implementation of this policy. These responsibilities include:
a) Providing and maintaining all workplaces in a safe condition;
b) Ensuring that all OH&S policies and procedures are implemented;
c) Actively promoting and being involved in those policies and procedures;
d) Providing adequate resources to meet these OH&S commitments.

Employees will ensure that they:
a) Follow all OH&S policies and procedures;
b) Report all hazards to their supervisor.
c) Act responsibly and within Commonwealth and State laws and with due care at all times.

We are committed to encouraging consultation and co-operation between management and employees, and will formally involve elected employee health and safety representatives in any workplace change or any matters that may affect the health and safety of employees in any workplace.
Enviromental

Amertec™ is committed to protecting the environment in all facets of operations and endeavors to at all times ensure that work practices and procedures are in such a manner that they are not detrimental to the environment.

Environmental aspects of operations shall be regularly reviewed to identify those facets of operations which may have a significant impact on the environment including:

a) Environmental impact on customers.
b) Environmental impact on the public.
c) Environment Legislation and Regulations.

Amertec™ endeavors to ensure that the use and disposal of materials including refrigerants, oil, water and failed or obsolete componentry are utilizing recycling where possible.

Amertec™ endeavors to ensure energy conservation is at a premium by delivering efficient system design and operation that adapts the best of today’s technology with the future in mind.
