

Our Product Range

Commercial Units

Commercial refrigeration isn't as simple as finding the cheapest fridge on the market and lining your aisles with them, and *Amertec*™ knows this, so we work with our clients to create and install high quality units with great visual appeal that highlight the product on display.

Amertec™ designs, manufactures and installs low energy, high efficient refrigeration systems that maximise shelf life and minimise costly waste.

Specific products and services we offer:

- Display Fridges and Freezers
- Liquor Display Rooms
- Supply and Installation of Cabinets
- Cool Rooms and Freezer Rooms
- Plant Upgrades
- CO2 Compressor Plants
- EC Condensers
- Servicing
- Planned Maintenance

Some of our key clients include:

- Foodland
- IGA Store
- IGA Fresh
- Cash & Carry

Hospitality

The hospitality sector contains a variety of different accommodation, food, beverage and travel businesses that require an equally diverse range of refrigeration systems. *Amertec*™ design tailored solutions for the smallest corner shop counter to the largest commercial hotel kitchen. Keep your finest goods on show with our quality display cabinets as well as servicing your kitchens with walk-in cool rooms and keg rooms.

Products and services Include:

- Beer Systems
- Keg Rooms
- Cool rooms
- Display cool rooms
- Freezer rooms
- Display cabinets
- Kitchen Equipment

Our Services

With over 25 years of expertise, *Amertec*[™] has experience working in every stage of a refrigeration project – from design to installation.

Why Us?

Amertec[™]'s proven track record working with commercial businesses highlights the excellent quality of our work and trades-people.

We design, install, and maintain refrigerators in some of the best supermarkets in South Australia, including the highly awarded Frewville Foodland.

Our commitment to creating energy-efficient and sustainable equipment and units means you can rest assured that you're doing your bit to protect the Earth.

Maintenance

Amertec[™] 24/7 emergency service will keep your business running, no matter what, and gives our clients peace of mind knowing that their stock and products won't go to waste in the unlikely event that something goes wrong.

With scheduled maintenance and no industry-standard call-out fees, our clients get the benefit of optimised efficiency and longevity of existing units.

Environment

Amertec[™] is committed to protecting the environment in all facets of operations and endeavours to at all times ensure that work practices and procedures are in such a manner that they are not detrimental to the environment. Environmental aspects of operations shall be regularly reviewed to identify those facets of operations which may have a significant impact on the environment.

PROVEN GREEN SOLUTIONS THAT WORK

Energy Audits

Amertec[™] undertake free equipment and energy efficiency audits to provide you with the right solutions to lower your power costs and make sure your business is environmentally friendly. It's a simple equation, if your equipment isn't running at its best you risk draining your physical and financial resources.

Design and Installation

Amertec[™] offers full design and engineering services to our clients, which includes the design of individual units and floorplans, and CAD drawings for individual parts. Our team of qualified in-house technicians accurately design and manufacture specialised parts necessary in keeping equipment running efficiently.

Amertec[™] has a proven track record when it comes to resolving problems, anticipating future issues and coordinating broadly-sourced equipment to accurately deliver our promise of quality, reliability and satisfaction.

Control Reconfiguration

Amertec[™] have a significant number of commercial refrigeration and air conditioning customers so we recognise the importance of tailoring a control system to meet individual requirements. We can design, install, and reconfigure numerous control systems to better manage supermarket and cold store systems. With a focus on energy efficiency and sustaining premium product quality, we can help you get the most from your units.

Our superior design skills are proven to deliver real savings and reduce your carbon footprint, securing a better world for our children.

At *Amertec*TM, we're not content with merely doing the job. We commit ourselves to exceeding our clients' expectations and delivering superb equipment with the highest quality installation and engineering.

*Amertec*TM's success is due to its commitment to fulfilling customers' expectations and developing and maintaining good relationships. We place enormous value on long-term business relationships and have our customers' best interests at the heart of every business decision and as a result we have built a loyal customer base.

The company's management group boasts more than 150 years of experience and leads a team of engineers and technicians who understand the business and production requirements of how to apply the right cooling and heating requirements that comply with the standards of a broad range of industries, including food, beverage, pharmaceuticals, and horticulture.

We'll be with you, every step of the way.
